

Environmental Policy

WS Carpentry & Joinery Ltd will ensure that environmental considerations are taken into account at every stage of our operations from planning through to execution to minimise environmental impact, prevent pollution and ensure effective use of resources.

WS Carpentry & Joinery Ltd will:

- Encourage and promote best practice and seek continuous improvement in environmental performance.
- Ensure compliance with environmental legislation.
- Assess the environmental effects of our operations and take all practicable steps to protect the environment.
- Where required present information to ensure that materials are procured, used, stored and disposed of in an environmentally responsible manner.
- Provide appropriate environmental training where necessary to ensure that all staff are aware of the environmental effects of their actions.
- Ensure the use of correct off-site disposal facilities.
- Ensure that resources are used wisely.
